504 INTERPRETATION OF DISTRICT BOUNDARIES

Where uncertainty exists with respect to the boundaries of any of the districts shown on the Zoning Map, the following rules shall apply:

- A. Where district boundaries are indicated as approximately following the outer line of streets or highways, street lines or highway right-of-way

lines, such centerlines, street lines or highway right-of-way lines shall be considered to be such boundaries.

Where district boundaries are so indicated that they approximately are parallel to the center lines or street lines of a street or of the center lines of right-of-way lines of highways, such district boundaries shall be construed as being parallel thereto and of such distance there from as indicated on the Zoning Map. If no distance is given, such dimensions shall be determined by the use of the scale shown on said Zoning Map.
- D. Where the boundary of a district follows a railroad line, such boundary shall be deemed to be located midway between the main tracks of said railroad line.

- F. In unsubdivided property, the district boundary lines on the map accompanying and made part of this Zoning Resolution shall be determined by dimension notes on the map, or by use of a scale appearing on said zoning map.
