Station 440.458.5178 • Fax 440.458.5179

### New Residential Lock Box Authorized For Use In Carlisle Township

After much discussion and investigation, the Carlisle Township Fire Department is authorizing the Roper Lock Box for RESIDENTIAL USE ONLY. Several nearby communities are using these boxes with much success.

The cost for the Roper box is currently under \$35.00 plus shipping and tax. This lock box is in addition to the currently used and recommended Knox Box (for residential and commercial use). It is the resident's responsibility to install the box (two screws) and contact the Carlisle Township Fire Department to have the box locked up, when the entrance door locks are changed, and to maintain the box. A small Carlisle Twp FD sticker will be put on the entrance door when the Fire Department locks the key(s) in the lock box. **Contact the Department for additional information and required forms.**

The Fire Department recommends that the lock box be installed at the entrance door on the hinge side of the door jam, approximately 6' high so it is out of the way and protected from the weather. A note may also be put inside warning of medical conditions or animals that may be encountered by the Fire Department personnel upon entry.

Only the Carlisle Township Fire Department will have access to this box for emergency use only (mutual aid fire departments and private ambulance services will not have access to these keys). The lock is has a designated code for only Carlisle Township. There is no guarantee of damage free entrance to your home, but this box will give a greater chance of a quick entrance in case of emergency.

To order: Model # CGLW, Wall Mount Lock Box

Key Code: #0070
